

Manufacturing Mission-Critical Printed Circuit Boards Since 1968!

Wednesday, August 05, 2009

CALUMET, MI: Calumet Electronics Corp. (Calumet) to introduce a new standard for printed circuit board manufacturing and supply-chain solutions at IPC Midwest - Booth 400, Schaumburg, IL. September 23-24, 2009.

Calumet has been manufacturing mission-critical printed circuit boards since 1968! Its legacy of high reliability performance with dock-to-stock dependability has been enhanced by 21st Century manufacturing technology and innovation supply-chain management solutions to create a new standard for manufacturing printed circuit boards and supply-chain partnerships. Calumet's innovative Dock-To-Stock Supply Chain Solutions™ offer a value-stream approach to managing supply-chain events. "Companies that understand what drives operating costs and prevents improvement recognize the critical need for transformational solutions" according to Stephen J. Marshall, National Sales Manager. "Our Dock-To-Stock Supply Chain Solutions™ are performance-based solutions that reduce the cost of quality, the cost of inventory, and the cost of life-cycle management that will give our customers a competitive advantage in any market."
